As a matter of policy, if a student withdraws for BBS within the first month of the Academic year, the parents are responsible for one third of the total year's tuition. If the student withdraws within sixty days, the parents are responsible for one half of the total year's tuition, after that the parents are responsible for one hundred percent of the total year's tuition. If a student is dismissed by administration, the parents are responsible for one hundred percent of the total tuition.

I acknowledge that the above is my financial obligation and I will discharge it as printed in this financial worksheet.
